1. Editorial
2. Business Meeting 2009
3. Report of the 2009 ENOP-Symposium "Job design for special groups" (Paris, March 26-28, 2009).
4. Sixth biannual meeting of the Division of Work and Organisational Psychology, German Association of Psychology "Decision making and change of work, in organisations and in the economy" (September 9-11, 2009, Vienna, Austria).
5. Polish-Ukrainian Workshop "Work and Organizational Psychology problems and challenges in Poland and Ukraine" (September, 24-27, 2009, Katowice, Poland).
6. International Collaborative Experience for Masters Students in WOP-P and I/O Psychology between San José State University of California (USA) and University of Valencia (Spain).
7. The Second EAWOP Early Career Summer School (September, 11-17, 2010, Valencia, Spain).
8. Future Conferences, Congresses and Meetings (2009-2012).
9. Information about Open Position.
10. ENOP-Members Research Interests and Publications.

1. Editorial

Dear colleagues,

This Newsletter provides information about activities of the ENOP in the period March-October, 2009.

You will find information about decisions taken at the business meeting held in Paris, March 27, 2009, the report on the 2009 ENOP Symposium "Job design for special groups".

In addition, the Newsletter includes the reports about the Sixth biannual meeting of the Division of Work and Organisational Psychology, German Association of Psychology "Decision making and change of work, in organisations and in the economy" (September 9-11, 2009, Vienna, Austria) and Polish-Ukrainian Workshop 'Work and Organizational Psychology problems and challenges in Poland and Ukraine' (September, 24-27, 2009, Katowice, Poland). Also the Newsletter provides the information about International Collaborative Experience for Masters Students in WOP-P and I/O Psychology between San José State University of California (USA) and University of Valencia (Spain).

Also you may find information about the Second EAWOP Early Career Summer School (Valencia, Spain, September, 11-17, 2010) and forthcoming conferences, congresses and meetings in the field of Work, Organizational and Economic Psychology (2009-2012).

Finally, you will find updated contact information of the ENOP members, résumés of their research activities and publications in 2009, and some other helpful information.

Lyudmila Karamushka
Kyiv, October 2009

2. Business Meeting 2009

The business meeting of ENOP was chaired by *Fred Zijlstra*. Meeting took place at the Université René Descartes, Paris, on March 27, 2009, with the following agenda:

- a) Status of ENOP
- b) Financial situation
- c) ENOP Membership
- d) ENOP website
- e) ENOP Newsletter
- f) ENOP Symposium 2009
- g) CoCo members and CoCo meeting
- h) The Small Group Meeting on QWL
- i) Other ENOP activities

Participants: John Arnold, Antonio Caetano, Gudela Grote (minutes), David Guest, Gunn Johansson, Lyudmila Karamushka, Erich Kirchler, Mare Teichmann, Matti Vartiainen, Fred Zijlstra (chair)

a) *Status of ENOP*

The association ADEMAST was formally changed into ENOP - ENOP thereby is now a formal French association (president: Vincent Rogard; treasurer: Fred Zijlstra). The Coco will continue to operate as before with the current additional members Gudela Grote, David Guest and Lyudmila Karamushka who were elected for two years at the last business meeting in March 2008.

b) *Financial situation*

There are sufficient funds to finance the basic activities of ENOP (newsletter, CoCo meetings, symposium). Vincent Rogard will finalize the financial report by the end of April 2009.

c) *ENOP Membership*

ENOP currently has about 15 paying members. Anna Leonova, who left ENOP, would like to rejoin, which is very much appreciated. There are a number of proposals for new members. The following people will be contacted and invited to join ENOP:

Lourdes Munduate (University of Seville, Spain)

Jesus Salgado (University of Santiago di Compostela, Spain)

Sabine Sonnentag (University of Konstanz, Germany)

Ulla Kinunnen (University of Tampere, Finland)

Kerstin Isaksson (Mardalen University, Sweden)
Magnus Sverke (Stockholm University, Sweden)
Hans de Witte (Leuven University, Belgium)
Barbara Kozusznik (University of Silesia, Poland)
Franco Fraccaroli, Italy

A number of other persons were discussed, but not decided upon. Former ENOP members will be contacted and the EAWOP conference participants screened to identify further candidates for ENOP, especially from Germany, Norway, Italy, UK, and Eastern European countries.

It is decided to invite retired ENOP members back for the symposium following their retirement and honour their active participation with a dinner invitation.

d) ENOP website

Mare Teichmann presents the new ENOP website including a blog to be accessible by all ENOP members. The address is www.enop.ee. There are currently still a few administrative issues to be solved (e.g. closing the old website), the website should be fully up and running by the summer. There will also be links established to the homepages of the ENOP members.

Many thanks to Mare for her excellent work!

e) ENOP Newsletter:

-*Lyudmila Karamushka* will keep her responsibility for Newsletter preparation. Lyudmila Karamushka informed that next ENOP Newsletter N 57 will be prepared in October, 2009. Materials of the Newsletter will be placed as well on the ENOP web-site.

f) ENOP symposium 2010

The symposium will take place on *March 25-27 2010 in Paris*. Suggestions for topics were

- "How to change minds: Methods for major attitude and behavior change",
- "Revisiting fairness of reward systems in light of the financial crisis",
- "The role of work and organizational psychology in business schools".

A call will be distributed, so that new members could also propose a topic.

A final decision on the topic will be made by CoCo.

Matti Vartiainen and Erich Kirchler volunteered to organize the next symposium if it follows more or less closely the lines of the first two topics proposed.

The next ENOP Symposium will take place in Paris, on March 25-27, 2010

Next ENOP Business Meeting will be on 9-12, March 27, 2010 in Paris.

g) CoCo members and CoCo meeting:

CoCo 2009/2010 consists of the following members:

Rogard Vincert – President

Zijlstra Fred – Treasurer

Grote Gudela – Secretary

Karamushka Lyudmila – Editor of Newsletter

Guest David

The next CoCo meeting will take place on Friday, October 30, 2009

h) The Small Group Meeting on QWL

The Small Group Meeting on QWL, which was proposed as a consequence of last year`s ENOP symposium, has been accepted by the EAWOP executive committee. It will take place just *before the next ENOP symposium, March 23-24, 2010* also in Paris. It is envisioned that 25 researchers, half junior and half senior people will participate.

i) Other ENOP activities

- The *next summer school* is foreseen for 2010, possibly on the topic of employment relationships.
- The *ENOP conference 2009 in Lisbon* is progressing well - about 50 abstracts with very international participation were submitted.
- *Fred Zijlstra* will contact José Maria Peiró regarding the memorial session for Bernhard Wilpert at the EAWOP Congress 2009. *Robert Roe* is designing a special webpage for Bernhard Wilpert also.

3. Report on the 2009 ENOP Symposium "Job design for special groups" Paris, March 26-28, 2009

The 2009 ENOP symposium was devoted to the topic of 'Designing work for people with special needs'.

The topic of the symposium was introduced by **Fred Zijlstra**. He presented the message that due to demographic developments a shortage at the labour market can be anticipated. Which means that governments are thinking of ways to increase the participation on the labour market of various groups, including elderly, but also people with particular kind of limitations (mental or social limitations).

On the other hand work itself has also changed over the last decades, primarily the basic tendency seems that work has intensified and become more complex. The requirements to be able to find a job seem to have increased, but in physical and cognitive sense. The 'simple' jobs have disappeared. Which means it is increasingly difficult for people with low level of qualifications (education, training, social skills, etc) to find a job.

Combining these two above tendencies may call for specific measures and solutions, such as adapting tasks to the possibilities and capabilities of (parts of) the work force. Thus the proposed solution is called 'inclusive organization' and 'elementary jobs'. This refers to organizations that are able to include various groups (also people with limitations), and simple jobs that do not require little or no specific knowledge and training (competencies). This idea was presented at the symposium, and its feasibility was discussed.

The first guest speaker was **Henny Mulders (UWV, The Netherlands)**. His presentation focused on the Dutch social security system, and particularly on the position of young people with mental and social disabilities. It appears that The Netherlands is the only country with a specific law and social security regulation that is particularly focused on

this group, and thus also has information on this group. In the presentation methods of assessing working capacity, various diagnostic categories was presented, including the fact that the Dutch regulation concerning this group (Wajong) is currently under revision. The aim of the revised law is that people in this group will be stimulated to find a job, and try to earn (as much as possible) their own income, so that they can participate in society.

However, if people with a disability are stimulated to find a job, than on the other hand employers should be stimulated to open up employment for these people in their organizations. And as can became clear from the previous presentation, people in this particular group lack the competencies to fulfill a regular job. Hence, the initiative to develop methods that help to create ‘elementary tasks’ (i.e. a set of simple tasks).

The second guest speaker was **Frans Nijhuis (Maastricht University)**, with title: **Working with a disability: A challenge for the employee and the organisation**

Introduction

Participation of all citizens is becoming more and more a challenge in every European country. In The Netherlands there is a fast growing policy to increase the labour participation of persons with disabilities. The Dutch society could be seen as a caring society, giving attention to good work incapacity pension, good care and cure, in the last ten years there has been a tremendous shift towards a participating society. One of the central goals in this change is the increase of the labour participation of persons with disabilities. There are several reasons for a shift of attention towards participation, as well economical as well psychological.

The main reason for such a change was that the existing social security system was not activating. This is no Dutch problem, because an analysis of the social security systems in fifteen European countries showed that the social security system is **not** activating persons with a disability into the labour market and even more that the social security system often creates barriers and thresholds for persons with disabilities or a chronic disease to enter the labour market and to stay employed at the labour market.

Another result was that the definition of work incapacitated is different between the European countries and this difference influences the participation of persons with a disability or a chronic disease, but it also influences the self-image of the person with a chronic illness or a disability. Between the European countries exists a huge difference of persons who define themselves as having a chronic illness or disability and the number of persons that experience problems in their labour participation because of their health related limitations.

Improving the labour participation

An international study showed several reasons that could support persons with a chronic illness or disability to enter the labour market or could support employers to employ persons with a disability.

From the perspective of the employee with a disability the most supporting activities are:

- 1) A supported employment service
- 2) Financial support to pay for the cost of being in a job

- 3) Positive & supportive attitudes
- 4) Someone to help a person to get grants
- 5) A one-stop-shop
- 6) A personal assistant
- 7) Working & receiving benefits
- 8) Being proficient in the language
- 9) Skills and Qualifications
- 10) Vocational training

Facilitating measures from the employers' perspective are:

- 1) Productivity Related Financial Supports
- 2) Workplace Monitoring
- 3) Job/Person Matching
- 4) Financial Incentives
- 5) Corporate Social Responsibility
- 6) Job coaching
- 7) Environmental adaptations
- 8) Disability awareness training
- 9) Information and advice
- 10) Recruitment Agencies
- 11) Diversity and equal opportunities

Difference in entering the labour market and keeping a job

Based on the existing research it was concluded that specific laws and regulations have to be developed for persons with a disability or a chronic disease that have a kind of employment and for those who are not participating at the labour market. The factors in the European study, mentioned above, are related to the process of entering the labour market.

In another study on almost 1200 employees with a chronic disease or a disability we asked what kind of strategies they used to keep employed. The strategies that were used most often did not differ between persons with different disabilities. The most important strategies were:

- 1) Acceptance of your disability
- 2) Open communication with colleague and/or supervisor
- 3) Good collaboration and cooperation
- 4) Do what you can do
- 5) Optimistic and motivated attitude
- 6) Positive perseverance attitude
- 7) Taking the initiative
- 8) Trying to find one's own solutions
- 9) Social support of colleagues
- 10) Understanding of colleagues

Conclusions

In creating a more participating policy it will be necessary to look at the factors that motivates persons with disabilities to enter the labour market and at the factors that

motivate employers to employ persons with disabilities. It will also be relevant to differentiate in the participation of persons with disabilities between those who are working and those who are outside the labour market.

Other policies and regulations are needed to increase or behold the labour participations of persons with disabilities.

The third and last guest was **Marion Wolff (University Rene Descartes, Paris)**, who informed the audience about a project that she was involved with, that focused on helping people with autistic spectrum syndrome.

With these presentations the message was presented that there is a substantial group in society that can not really participate in society, unless they receive specific help. And the organizers of this symposium think that Work & Organizational Psychologists have the knowledge and expertise to contribute to finding solutions for this topic. A first requirement though is that this topic is on the agenda of W&O psychologists.

4. Sixth biannual meeting of the Division of Work and Organisational Psychology, German Association of Psychology “Decision making and change of work, in organisations and in the economy”

September 9-11, 2009, Vienna, Austria

The 6th biannual meeting of the Division of Work and Organisational Psychology, German Association of Psychology was organized by the team of economic psychology at the Faculty of Psychology, University of Vienna, under the headline: “Decision making and change of work, in organisations and in the economy”. The biannual conference represents the main meeting of work and organizational psychologists in the German speaking countries. Overall, 600 academics and practitioners participated, together with 56 organizers and student staff members. The program contained over 420 presentations organized in 84 sessions which covered a wide range of topics in the field of work and organizational psychology as well as consumer behaviour and economic psychology. The Vienna meeting included for the first time economic psychology as a topic in the program. Traditional research in work and organizational psychology like leadership, teams in organizations, stress and work-life balance was supplemented by research in consumer attitudes and decision making as well as in economic psychology, such as financial decisions and tax behaviour. Furthermore, participants were invited to take part in a variety of workshops which created an atmosphere to debate on crucial topics. Topics varied, for instance, from the humanisation of work, to science meets practice, to discussions on work and organizational psychology as sub-disciplines of economic psychology in general, to discussion on the European Certificate in Psychology.

Key note speakers were Sharon Parker (University of Sheffield; UK) who gave a highly stimulating speech on “Staff who make things happen: New directions in understanding proactive behaviour at work”; José Peiro (University of Valencia, Spain), who presented “The role(s) of leadership in occupational health and well-being”, W. Fred van Raaij

(Tilburg University, The Netherlands), who talked about “Consumer and Investor Confidence and Trust”, and Sabine Sonnentag (University of Konstan, Germany), who spoke about findings of creativity, innovation and proactivity.

Although the main working language was German, parts of the meeting were conducted in English. For the first time, colleagues from non-German-speaking countries were explicitly invited to join the conference.

The social program included guided jogging in the morning, a conference gala dinner in the Vienna Town Hall and a farewell ceremony in the main building of the University.

We thank the colleagues who help organizing the conference, especially Heike Ulferts, and the participants who made the conference a success.

5. Polish-Ukrainian Workshop 'Work and Organizational Psychology problems and challenges in Poland and Ukraine'

September, 24-27, 2009

Katowice, Poland

On September, 24-27, 2009 the Chair of Work and Organizational Psychology of the University of Silesia, the Laboratory of Organizational Psychology of the Institute of Psychology (Kyiv) and the Ukrainian Association of Organizational and Work Psychologists held a workshop *WOP problems and challenges in Poland and Ukraine*. The purpose of the workshop was to discuss the current research results and plan the future co-operation.

The seminar was organized under the auspices of Division 1 'Work and Organizational Psychology' of the International Association of Applied Psychology (IAAP).

Besides it was the result of close cooperation between Division 1 'Work and Organizational Psychology' of IAAP, the European Network of Organizational and Work Psychologists (ENOP) and the European Association of Work and Organizational Psychologists (EAWOP). Four members of the European Network of Organizational and Work Psychologists (ENOP) were members of the International Scientific Committee of this workshop: *Prof., Dr. Peiró, Jose M.* – President of Division 1 'Work and Organizational Psychology' of the International Association of Applied Psychology (IAAP), member of ENOP (University of Valencia, Department of Social Psychology, Valencia, Spain); *Prof., Dr. Sinangil, Handan Kepir* – Elect President of Division 1 'Work and Organizational Psychology' of the International Association of Applied Psychology (IAAP), member of ENOP (Marmara University, Department of Business

Administration, Istanbul, Turkey); *Prof., Dr. hab. Kożusznik, Barbara* – member of the Coordination Committee of Division 1 ‘Work and Organizational Psychology’ of the International Association of Applied Psychology (IAAP), member of ENOP, Vice Rector for Student Affairs, Promotion and International Relations of the University of Silesia; Chief of the Chair of Work and Organizational Psychology of the Institute of Psychology of the University of Silesia (University of Silesia, Katowice, Poland); *Prof., Dr. (Psychology) Karamushka, Liudmyla* – member of the Coordination Committee of Division 1 ‘Work and Organizational Psychology’ of the International Association of Applied Psychology (IAAP); member of the Coordination Committee of ENOP, Head of the Laboratory of Organizational Psychology of the Institute of Psychology; president of the Ukrainian Association of Organizational and Work Psychologists (UAOWP) (Institute of Psychology, Kyiv, Ukraine). *The workshop coordinators* were Prof. Barbara Kożusznik (Poland) and Prof. Liudmyla Karamushka (Ukraine).

The workshop was attended by 17 Polish and 13 Ukrainian researchers, PhD and graduate students.

From the Polish part the opening addresses were made by prof. Barbara Kożusznik (Vice-Rector of the University of Silesia), prof. Zbigniew Spendel (Dean of the Department of Pedagogy and Psychology, University of Silesia), prof. Mągorzata Górnik-Durose (Director of the Institute of Psychology at the University of Silesia), Dr. Joachim Foltys (Director of the Katowice School of Management), from the Ukrainian part by prof. Liudmyla Karamushka (the President of UAOWP).

The invited Keynote speaker *prof. Handan Kepir Sinangil* made her presentation *Contributions of Work and Organizational Psychology to the Well-being of Individuals, Organizations and Countries*.

The workshop had *two oral sessions*: ‘Work and Organizational Psychology problems and challenges in Poland’ chaired by B. Kożusznik and ‘Work and organizational psychology problems and challenges in Ukraine’ chaired by L. Karamushka). The variety

of workshop topics reflected current problems of development of WOP in Poland and Ukraine. The *topics discussed included*: Strengthening the role of work and organizational psychologists in the global society (Kõżusznik B, Poland), Organizational culture and innovativeness based on values (Polak, J., Poland), Organizational and social resistance to changes in organizations (Stasiła-Sieradzka, M.), Work engagement among polish economic emigrants (Turska, E), Effectiveness of employee's trainings of European Social Found projects in Poland and organizational commitment of their participants (Chrupala-Pniak, M. Poland), The Initial Polish adaptation of the Multidimensional Work Ethic Profile (Chudzicka-Czupala, A. & PhD Grabowski, D., Poland), The aging man in flexible forms of employment. The case of Poland (Dobrowolska, M., Poland), Goals of persons starting their professional careers versus their work adaptation (Smorzewska, B., Poland), Personnel's change making motives in educational organizations (Karamushka L., Ukraine), Psychological aspects of characteristics of competitiveness in economics students Tereshchenko, K., Ukraine), Development of educational organization employees' competitiveness as a condition of their teamwork efficiency (Fil, A., Ukraine), Psychological peculiarities of female managers' gender identity (by the example of female students managers) (Bondarevska, I, Ukraine), Critical situation behavioral strategies in secondary school principals (Bondarchuk, O., Ukraine), etc

The workshop also had *two interactive poster sessions*: 'Work and organizational psychology problems and challenges in Poland' chaired by H.Sinangil) and 'Work and organizational psychology problems and challenges in Ukraine' chaired by A. Carter. The participants made and discussed about 20 interesting presentations.

Besides purely scientific problems, the participants focused their attention on some problems of *international cooperation* which were analyzed in the presentation 'EAWOP initiative to support Work and Organizational Psychology around the Baltic Sea' made by the Keynote speaker *Dr. Carter Angela*, Member of the Executive Committee of the European Association of Work and Organizational Psychologists (EAWOP); EAWOP Constituent Coordinator (Sheffield, UK). During the discussion that followed the Polish and Ukrainian parts analyzed possible ways of development, obstacles and challenges of work and organizational psychology in their countries. It's noteworthy that the discussion of the Baltic countries WOP cooperation will take place at the *EAWOP Baltic Group Meeting* on October, 24-27, 2009 (Tallinn, Estonia) with Ukraine being its participant.

Prof. Karamushka, L., the president of UAOWP (Kyiv, Ukraine) made her actively discussed presentation 'The Ukrainian Association of Organizational and Work psychologists (UAOWP): initiative regarding development of WOP in Ukraine in the content of international cooperation' in which she made an account of UAOWP's international activates over the last seven years.

The workshop participants discussed and adopted the *Wop Polish-Ukrainian Cooperation Program*.

The workshop had an interesting social program which included the Krakow guided sightseeing bus-tour, excursion to historical places of Krakow, visit to Jagiellonian University and a tour of Katowice and Upper Silesia.

The workshop results were reflected in the *Book of Abstracts: Work and Organizational Psychology Problems and Challenges in Poland and Ukraine (Polish-Ukrainian workshop, 24-27, September 2009, Katowice, Poland)*. Editors: Liudmyla Karamushka, Barbara Kożusznik. – Kyiv: Interlink, 2009. - 107 pages.

In his Welcome Address Prof., Dr. Peiró, Jose M., the President of Division 1 ‘Work and Organizational Psychology’ of the International Association of Applied Psychology (IAAP), member of ENOP wrote: ‘I think this event is really important for the Development of Work and Organizational Psychology in the region and also for the advance of the internationalization of WOP... Also I am confident that the interaction with the participants of different countries will increase their social capital and will strengthen the international network of our discipline’. We hope that the workshop justified these words. To the participants’ shared mind the workshop offered the participants a unique opportunity to present their research results, share experience and outline ways of future cooperation.

The Polish and Ukrainian parts were unanimous in their willingness to conduct this kind of seminars and trainings on a regular basis as well as exchange information relevant to WOP.

6. International Collaborative Experience for Masters Students in WOP-P and I/O Psychology between San José State University of California (USA) and University of Valencia (Spain)

6.1. Students from San José State University of California and University of Valencia participate in international virtual collaboration program

Sharon Glazer from San José State University of California and *José María Peiró* from University of Valencia are carrying out a joint activity, called "Virtual Abroad Program".

This program (VAP) refers to a virtual collaboration project in which 25 students from Faculty of Psychology at the University of Valencia (UVEG) have started working with a team of as many students from San Jose State University of California (SJSU) for three months.

The 50 students were assigned to international teams. Each team is working virtually using ICT to develop a proposal for professional intervention on issues such as occupational health, stress, leadership in organizations, job training and vocational counseling. The program aims to develop skills in managing cultural diversity since the proposed intervention has to be done for a third country – that is, for a country, different to the origin of student participants. Carrying out this activity, students from both universities will have a wonderful opportunity of getting an insight into the functioning of virtual teams, having deadlines and working with multi-cultural teams.

During the last weeks of the program, students will present their proposals to the entire group, using Elluminate technology available at University of Valencia. Finally, Professor Sharon Glazer (SJSU) and Professor José María Peiró (UVEG) will give a lecture about the importance of globalization and cross-cultural development for training and professional practice of psychologists.

This program was made possible through collaboration between the two universities under the Erasmus Mundus Master in Work, Organizational and Personnel Psychology (www.erasmuswop.org). This Master is offered by a consortium including the Universities of Coimbra, Paris, Barcelona and Bologna under the coordination of the University of Valencia. Around 8 to 10 students from SJSU participated as external

students in recent editions of the Master's "Winter School". This cooperation has been a basis for developing the "Virtual Abroad Program" for undergraduate students at both universities.

Submitted by:
Prof. Jose M. Peiró,
University of Valencia
(Spain)

6.2. An International Collaborative Experience for Masters Students in WOP-P and I/O Psychology

San Jose State University's Masters program in Industrial and Organizational (I/O) Psychology has teamed up with the European Union's Erasmus Mundus Masters program in Work, Organisational, and Personnel Psychology (WOP-P) for the WOP-P's virtual team and Winter School program. This program provides students with numerous real-world global experiences, while also implementing an applied study abroad immersion experience.

As part of its educational programme, WOP-P Master Erasmus Mundus (www.erasmuswop.org) offers joint intensive learning unit - Winter school. *The II International Winter School "Bernhard Wilpert" took place from 22nd of February until 7th of March, 2009 in Barcelona.* Emphasis was placed on the design and development of models, strategies, methods and tools. The teaching staff was composed of well-recognised university professors and researchers from different European countries

The aims of the program are:

- 1) To develop internationally aware and competent I/O Psychology graduates who are proficient with understanding individual differences in organizational behaviors and attitudes, due to cultural differences.
- 2) To engage our graduate students in international coursework that would prepare them for international benchmarking tasks, global survey development and assessment, survey feedback, and other organization development and training programs.
- 3) To hone our graduate students' intercultural competencies so that they can interpret multinational data that is intertwined with vast global complexities.
- 4) To build upon the current, small foundation of intercultural I/O experts, who have the much needed data skills and statistics background from a cultural perspective.
- 5) To expose students to first-hand experiences engaging in global virtual teams, intercultural communication challenges, and competencies in cultural matters that

go beyond knowledge they gain in reading important research on culture's impact on organizational life.

- 6) To enhance students' global awareness of state-of-the-art processes that they could utilize in their workplace.

This collaborative effort provides a global experience that one often finds in business schools, with the humanistic background and statistical training and analytical skills that sets apart I/O Psychology graduates from MBAs. This program exposes our students to the heightened challenge of communicating across cultures and the challenges global virtual teams face. At the end, we hope to shape our students into globally-aware HR practitioners who could help create strategies, processes, and interventions for the global workforce. While studying the state-of-the-art of I/O-related practices around the world, with students from around the world, our students will get first-hand experience in interpreting their teammates' cultural filters, as well as implications of cultural practices and policies regarding work.

Thus far, my students' reactions are quite positive and they have agreed that the experience thus far is eye-opening and rewarding. To best understand how students are thinking about the program, I asked them to comment in 2-3 sentences some pros and cons they've experienced. One student commented that she enjoys the freedom to be creative in writing papers and PowerPoint presentations without excessive instruction. Another student wrote that her teammates are "awesome" and that everyone is "extremely dedicated to getting the project done" though the language barriers and time differences have sometimes been challenging. Another graduate student wrote that "everyone is really good about staying on top of things" or communicating with the team when delays are expected. She further commented on the supportive collaborations for resolving problems. Others have commented on the team coordination required to work around each other's busy schedules. This was the most negative (if one would even label it as such) comment I have received thus far. A number of my students, in the beginning of the project, clearly noticed their "American-style" of "getting down to business" and remembered that it is important to get to know their partners first. Each of the 7 participating graduate students at SJSU has continued to express their enthusiasm to meet their partners face-to-face during the Winter School portion of the team project experience. The Winter School will be held in Barcelona, Spain and for many of my graduate students this will be their first overseas experience.

Overall, at this point in the program, we are achieving the goals and aims set forth. We eagerly await the climax of the program at the Winter School.

7. The Second EA WOP Early Career Summer School

(September, 11-17, 2010, Valencia, Spain,)

EA WOP (The European Association of Work and Organizational Psychology) is happy to announce **The Second EA WOP Early Career Summer School** in Valencia from the 11th to the 17th of September 2010.

The summer school will be organised by José Maria Peiró and his team from the University of Valencia. Several prominent senior scholars are invited to contribute and participate in the summer school.

The aim of EA WOP summer schools is to support young scholars in the field of work and organizational psychology and increase their opportunities for networking and professional exchange. Qualified participants are young scholars who have obtained their PhD within the past 5 years.

The summer school will consist of a variety of activities:

- 1) Key Notes (held by senior scholars)
- 2) Sessions on fund raising, publishing and career-related issues (held by senior scholars)
- 3) Group sessions where participants will present and discuss their research with fellow participants and senior scholars
- 4) Poster sessions
- 5) Company visits
- 6) Social activities

EA WOP summer schools are of high academic standard. Therefore, the selection of applicants will be based on the quality of their application (abstract) while at the same time securing a broad national spread.

Information on the program, application procedure, deadlines and practical information will be posted at the EA WOP web page www.eawop.com. For further information or queries contact: Carmen.carmona@uv.es

Please feel free to disseminate this information to potential participants of the second EA WOP summer school.

Submitted by:
Prof. Jose M. Peiró,
University of Valencia
(Spain)

8. Future Conferences, Congresses, Meetings (2009-2012)

XIth European Conference ENOP 2009 On Organizational Psychology and Human Service Work

October 22-24, 2009

Lisbon, Portugal

9. Information about Open Position

Un poste de **professeur de psychologie du travail et des organisations** sera vacant à l'Université de Montpellier 3 à la **rentrée de 2010**.

La personne recrutée devra prendre la **direction de la spécialité** de psychologie du travail et des organisations (Master 1 plus Master professionnel de psychologie du travail et des organisations).

ENSEIGNEMENT

Les cours à assurer (M1 et M2) portent principalement sur l'analyse organisationnelle (théorie des organisations, structure des organisations, système des activités, motivation et engagement organisationnel, implication, justice organisationnelle, intervention dans les organisations, diagnostic organisationnel...). Un enseignement de psychologie sociale portant sur « l'influence sociale » (20h) est également à prendre en charge. Une intervention en M2 recherche est prévue.

Des aménagements partiels sont possibles en fonction du profil de la personne recrutée.

RECHERCHE

Le poste est actuellement rattaché au laboratoire de psychologie (EA 4425).

Un nouveau projet de laboratoire vient d'être déposé, pour le prochain contrat, au Ministère. Pour toute information voir WWW.lab-epsylon. Le poste sera positionné dans l'axe « Dynamique des capacités humaines » et au niveau du thème « Dynamique du sujet dans ses rapports au travail et aux organisations ». La personne recrutée aura à prendre en charge, dans quelque temps, la direction de l'équipe réunie sur ce thème.

Une expérience pratique en psychologie du travail et des organisations (formation, audit, recrutement, bilan de compétences, santé et prévention ...) sera appréciée.

POUR TOUTE INFORMATION, CONTACTER CLAUDE LOUCHE AU 0467704137

cloude.louche@free.fr

10. ENOP-Members Research Interests and Recent Publications

In this section you will find a list of 21 members of «New» ENOP, their addresses and research topics as well as publications dated 2009 indicated by the members.
